

Energy Trail 2016: 'Pioneering Biofuel Generation' || 18 March 2016 (12 pm - 5 pm)

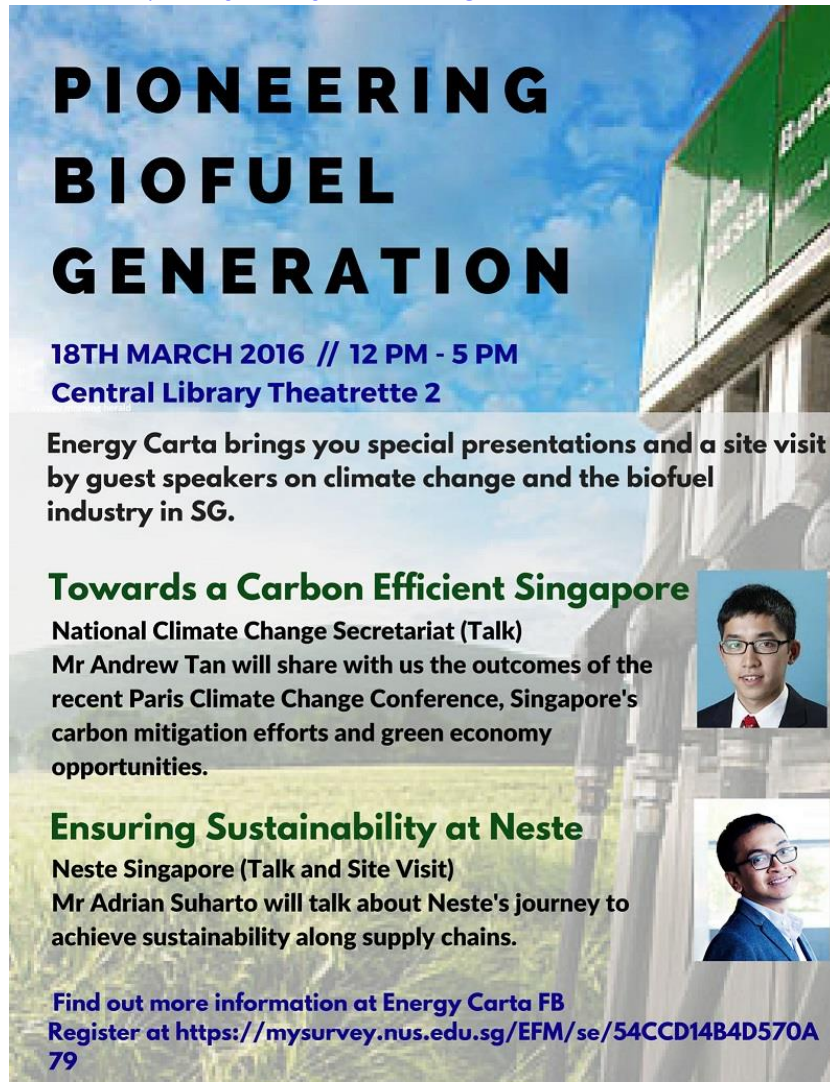

7 March 2016 || To: NUS Students

Sent on behalf of [Energy Carta](#), a student-led sustainable energy movement

Energy Trail is back again! This year the theme is Pioneering Biofuel Generation. As energy needs continue to soar, Singapore, as well as the rest of the world, needs to look ahead of their time to search for renewable energy sources to sustain development.

Continuing from last year's Singapore Solar Story, Energy Carta has invited industry experts, Mr Adrian Suharto and his colleagues from Neste Singapore to share more about the biofuel industry. Neste Singapore has also generously granted us an EXCLUSIVE site visit to look at their sustainable operations at Tuas. Mr Andrew Tan from the National Climate Change Secretariat (NCCS) will also be talking about why it is imperative for Singapore to invest in biofuels.

Take this opportunity to know more about industry players and understand how the biofuel industry helps Singapore to be more sustainable in its energy usage! Sign up right now at <https://mysurvey.nus.edu.sg/EFM/se/54CCD14B4D570A79>

The poster features a background image of a modern building with a green facade. The text is overlaid on this image. The main title 'PIONEERING BIOFUEL GENERATION' is in large, bold, black letters. Below it, the date and time '18TH MARCH 2016 // 12 PM - 5 PM' and the location 'Central Library Theatrette 2' are in blue. The text describes the event as a special presentation and site visit by guest speakers on climate change and the biofuel industry in SG. It lists two speakers: Mr Andrew Tan from the National Climate Change Secretariat (NCCS) and Mr Adrian Suharto from Neste Singapore. At the bottom, it provides a link to register at the Energy Carta Facebook page.

**PIONEERING
BIOFUEL
GENERATION**

18TH MARCH 2016 // 12 PM - 5 PM
Central Library Theatrette 2

Energy Carta brings you special presentations and a site visit by guest speakers on climate change and the biofuel industry in SG.

Towards a Carbon Efficient Singapore
National Climate Change Secretariat (Talk)
Mr Andrew Tan will share with us the outcomes of the recent Paris Climate Change Conference, Singapore's carbon mitigation efforts and green economy opportunities.

Ensuring Sustainability at Neste
Neste Singapore (Talk and Site Visit)
Mr Adrian Suharto will talk about Neste's journey to achieve sustainability along supply chains.
