

## Energy Carta || Changing the Game

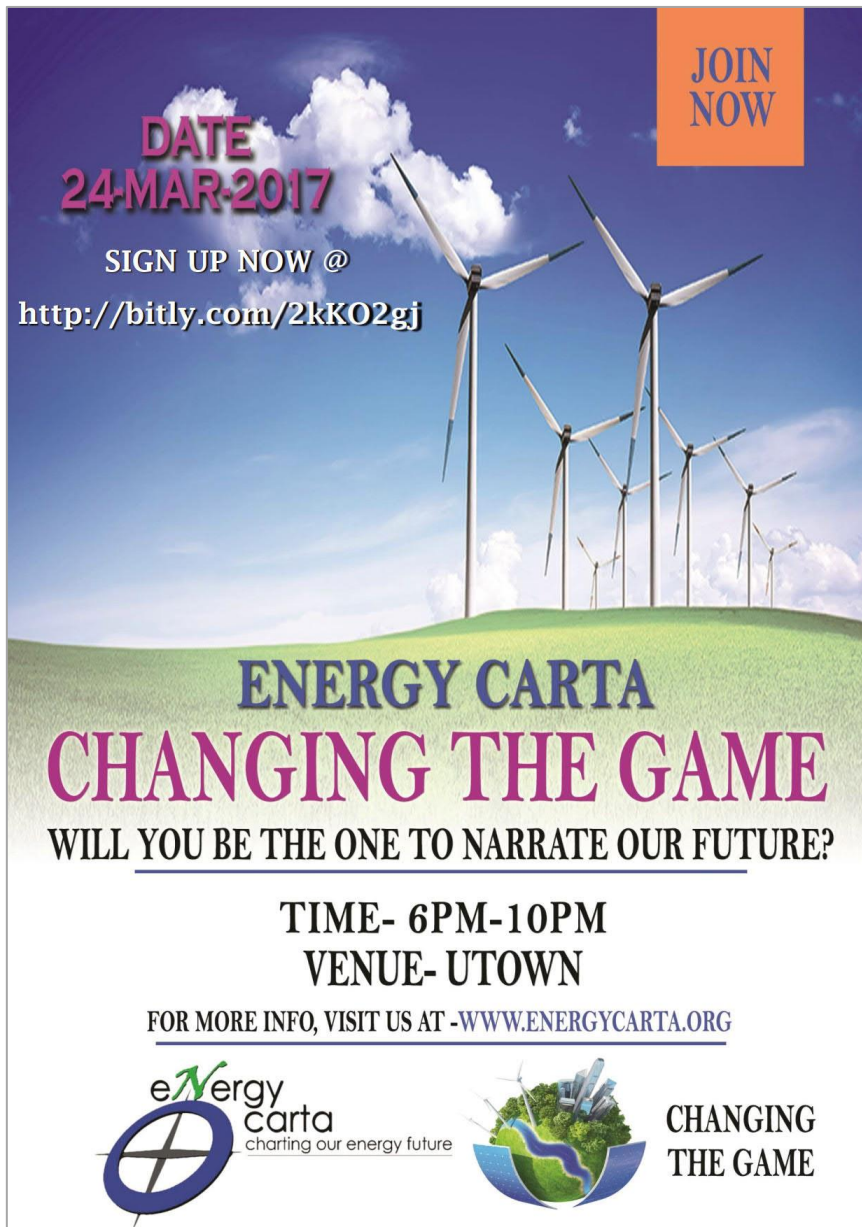

24 February 2017 || TO NUS Students

Sent on behalf of [Energy Carta](#), a student-led sustainable energy movement

Want to gain a deeper insight into the energy industry or simply make new friends from different faculties?  
Energy Carta is now recruiting both facilitators and participants for Changing the Game (CTG)!

CTG is a policy-making game aimed at redesigning the energy landscape using cleaner energy sources.  
Facilitators will be guiding participants through the game and facilitating discussion.  
(Don't have a clue about energy sources? Fret not! Prior experience/knowledge is not required as training will be provided).

Participants will be led through a discussion-centred game and will compete to get the maximum number of points possible!
