

Green Careers Networking Session 2018 || 24 Feb 2018

9 February 2018 || TO NUS Students

Sent on behalf of the [BES Student Committee](#)

With environmental and sustainability issues growing in significance, the rise of green jobs to help drive a push for a greener world is becoming more important than ever. As such, the 6th Bachelor of Environmental Studies (BES) Student Committee, supported by the Office of Environmental Sustainability, is organising the Green Careers Networking Session for students interested in finding out more about the landscape within the Green Sector. Join us for an afternoon with our 5 expert panelists from different fields who would be sharing about their experience working in the Green Sector and the skills you'd need to thrive in it. There will be a Q&A session after the panel as well as opportunities to mingle with the panelists over tea.

Admission is free!
