

What happens to the waste you throw away every day? || Waste-to-Energy Plant Visit on 13 April 2017

30 March 2017 || TO NUS Staff

Did you know that some of your waste is being converted to energy – right here in Singapore? The Office of Environmental Sustainability is organising a trip for NUS staff to the first Waste-to-Energy Plant to be built under the National Environment Agency's Public-Private Partnership initiative. Join us on this visit to find out what happens to our waste!

WHAT HAPPENS TO THE WASTE YOU THROW AWAY EVERY DAY?

sustain**ABLE** NUS
for a greener campus

During this visit, participants will:

- Be aware of the problems and constraints which Singapore faces in the management of our solid waste.
- Learn and understand the importance of a well-managed waste disposal system in maintaining a clean city-state in the development of an efficient waste disposal system, and the measures needed to meet future challenges.
 - Experience the entire waste management process first-hand through a comprehensive guided tour.

For more information on the plant, please visit:
