

Learn about local biodiversity! || Upcoming events

25 May 2017 || TO NUS Staff

Been receiving the emails about the biodiversity found on campus? Enjoyed the exhibits displayed at our biodiversity roadshow? Here's your chance to learn more about Singapore's natural heritage!

WANT TO LEARN MORE ABOUT BIODIVERSITY?

IN THE COMING WEEKS, GET READY FOR...

FIND OUT MORE

Celebrate Singapore's natural heritage and learn more about the biodiversity that our island has to offer at this event! Visitors can look forward to a range of interactive workshops and exhibitions at this year's Festival.

27 & 28 May 2017
10:30 AM - 10:30 PM
@ Nex Shopping Mall, B2
Event Plaza

Visit to St. John's Island National Marine Laboratory & Marine Aquaculture Centre

Brought to you by the Office of Environmental Sustainability

REGISTER HERE

Open to NUS staff only

The St. John's Island National Marine Laboratory hosts visits to create better awareness of environmental issues and marine science research in Singapore. Participants will also attend a short seminar during this visit.

The Marine Aquaculture Centre was set up to develop technology for marine food fish production and facilitate development of commercial aquaculture and related activities in Singapore and the region.

16 June 2017
09:45 AM - 05:30 PM (Bus will depart at 10 AM and 5 PM)

Meeting Venue @ Alice Lee Plaza
(between University Cultural Centre and Lee Kong Chian Natural History Museum)

A fee of \$15 is applicable for this event.
