Sharing of NUS Safety Management System
With HDB and NTUC

On 7 July 2014, a team from Housing & Development Board (HDB) and National Trades Union Congress (NTUC), visited the Office of Safety, Health & Environment (OSHE).

The purpose of their visit was to understand the NUS safety and health organization structure and how safety & health programs are implemented in the University. OSHE staff shared with the delegates an overview of NUS safety & health organization structure and key programs in OSHE such as Laboratory Safety & Health Certification Scheme, Chemical Safety, Biosafety, Radiation Safety, Construction & General Safety, On-line Safety trainings, Safety and Health promotional programs, etc.

After the sharing session, there was a lively discussion between the two organizations with regards the ideas of safety organization and implementation of safety programs.
