OSHE Hosts Team from Massachusetts Institute of Technology

Mr Louis DiBerardinis (Director) and Pam Greenley (Associate Director) of the Office of Environment, Health & Safety (OEHS), Massachusetts Institute of Technology (MIT) visited NUS & CREATE campus from 4th to 8th Jun 2012. During their visit, they toured the newly constructed laboratories in CREATE campus. OSHE also took the opportunity to share with them the enhancements of NUS safety and health programmes. Mr Lou delivered a talk to the NUS community entitled “Ventilation, fume cupboards and lab layouts – optimizing for safety and energy”. The MIT team also went up with various vendors and consultants involved in the CREATE project.
