Sharing of NUS Safety Management System
With University of Tokyo

On 15 October 2013, a team from University of Tokyo, visited staff from Office of Safety, Health & Environment (OSHE) and Department of Building.

The purpose of their visit was to understand NUS safety and health program. OSHE shared on Laboratory Safety & Health Certification Scheme, Chemical Safety, Biosafety, Radiation Safety, On-line Safety trainings and others.

After the sharing session, we discussed on the challenges faced while implementing Safety Management System in the University.
